**Belanglo State Forest 3→**

(it's only a small sign on the left) Follow this road (Kardinia Ln which becomes Bunnigalore Rd- road names not signposted- TomTom use only). You will pass the Gordon VC rest area on your right. The road soon becomes gravel. Follow this for 2km where you will see the main sign

**Welcome to Belanglo State Forest.**

200m past this sign, **after** a bend to the left, there is a driveway (the second driveway in this short stretch); **turn left**. The gate has a hubcap in the centre and the gateposts have white & faded red squares. You have arrived!

If travelling from the south, at approx. 7km past the Illawarra Hwy turn off, you will see the sign for the Gordon VC rest area (left). This is your cue. Turn left here and follow the directions as from Sydney.

←This is a picture of the gate!

**Beware the *dip* at the gutter / table drain**
